# GUNN & MOORE LTD CRICKET BAT MAKERS

Since 1885, when William Gunn made his first bat, the firm of Gunn & Moore has been dedicated to the creating of bats of the finest quality. They are built from the best true bat willow available, thoroughly and naturally seasoned.

In a well made bat, balance is all important. A bat should not be too light in weight (**we will make lightweight bats for you, but we do not recommend it**).

Gunn & Moore bats are made in a number of grades and sizes. Each one receives the care of an expert craftsman at every stage. All Gunn & Moore bats are hand made. There is no other way to produce a perfect bat.

Picture on facing page shows William Gunn (captain) in the centre of the Players' team after the record-breaking Gentlemen v. Players' match at Lords in 1895. During the three days, 1,156 runs were made for the loss of 40 wickets.

## AUTOGRAPH RANGE

These are the finest bats that it is possible to make. Each Autograph bat is built from straight grained true bat willow, thoroughly and naturally seasoned. It is handmade by craftsmen whose lives are devoted to creating perfect bats. For over 80 years, leading cricketers throughout the world have consistently chosen Autograph.

### AUTOGRAPH

S.E.S. Carbon Fibre Spring Handle ★

The finest bat ever produced by hand from Gunn & Moore Ltd. The use of carbon fibres to assist in springing the handles greatly increases the 'drive area' and balance of the bat. To quote one touring player "I did not know a piece of wood could hit so sweetly." Since its innovation it has been used by several leading cricketers with great success."

The blades of these bats have been scientifically treated to preserve the nature of the willow. No oiling is required and the possibility of drying and cracking of the wood is therefore virtually eliminated. The NON-OIL bat maintains itself and cleaning with sandpaper or razor blade will not remove the treatment.

## POLYMPIC

# CRICKET BATS

## BATS WITH SHORTER HANDLES

All Gunn & Moore bats for men can be supplied with handles of any desired length. The standard short handle bat is  $\frac{3}{4}$  in. shorter than a normal sized bat.

## LEFT-HAND BATS

Left hand models of all Gunn & Moore bats are available.

**Be sure to specify clearly if you require short handle and/or left-hand bats.**

All bats except the Velhide Driver and Super Driver can be wrapped with twine or rawhide to order.

Autograph S.S. Cannon Selected and Nonjar Super bats can be supplied if specially requested.

## SUB-STANDARD OR REJECT CRICKET BATS

From time to time we have for disposal small quantities of Sub-Standard or Reject Cricket Bats in our "AUTOGRAPH" and "CANNON" qualities.

These bats are made of the best quality materials but have failed to pass our strict grading test owing to slight deductions in the appearance of the blades.

As such blemishes lower their saleable qualities, although no detriment to the actual wear of the bats, we class them as rejects and offer at 25% less than our proprietary lines for each respective quality available. The bats are branded the same as our "Autograph" and "Cannon" with the addition of a distinguishing mark X on the splice and small "Sub-Standard" or "Second" stamp on back.

# RE-BLADING CRICKET BATS

A new blade can be fitted to any handle, regardless of make.
