# MADE BY England's Best

This GM Book of Cricket is designed to assist our trade customers around the World with their purchasing decisions. For more detailed information, see our website at: www.gm-cricket.com

## 8 REASONS WHY GM?

You should stock GM because:

- 1. All GM English Willow DXM bats in this Book of Cricket are designed and produced by our own craftsmen and women in our own factory in Nottingham, England
- 2. The GM factory is the most technologically advanced in the World
- 3. Only GM blend state of the art DXM technology with over 135 years of craft experience
- 4. From tree to track, we source much of our willow ourselves, raising quality standards even higher
- 5. We have direct and absolute control over every aspect of the bat manufacturing process
- 6. GM Bats lead the industry with continuous improvement through Research & Development. GM 2024 bats are our most advanced yet
- 7. GM make more bats in England than all other bat brands put together
- 8. All GM 2024 DXM bats feature our superlative livery, showing more of the blade. We are very proud of our Made In England manufacture and have Nothing To Hide!

No wonder that GM DXM bats are regarded by all as The Best Bats In The World. Pick up a GM DXM bat and feel the electricity flow!

Ask other brands where "their" bats are made and by whom?
Ask us, and we will tell you about Kevin, Brian, Robert,
Dave, Adrian, Mark, Janice and the whole team. Better still,
come and visit the factory in Nottingham and see GM British
Manufacturing Excellence leading the World for yourself!

#### **BAT WEIGHTS: IMPORTANT INFORMATION**

Bat weight and performance is dependent on the particular cleft of English Willow that it is made from. No two clefts are the same even from the same tree.

Heavier willow - less prone to damage, inherently more powerful.

Lighter willow - more manoeuvrable, faster bat speed.

**ALWAYS SELECT A BAT BASED ON ITS** PICK UP, HOW IT FEELS TO YOU, NOT ON ITS SCALE WEIGHT.

#### TO GIVE YOUR BEST YOU NEED THE RIGHT EQUIPMENT.

CADEMY

GM manufacture a bespoke size of bat - ACADEMY for taller youths. Designed from the outset for these specific players, custom tuned for pick-up and power.

F-TECH

All GM English Willow bats benefit from our

extensive knowledge of Face Dynamics for

optimised face profiles for each blade design.

GM 2024 Adult bats feature two different blade lengths - L540/555. Each blade shape is increases so that the overall length of the bat remains constant.

## DXM

Our world leading DXM process implements the findings of a 5 year research programme into bat materials and manufacturing technology. Substantial investment in research, expert advice and machinery means:

- Superior wood conditioning improves the stability and consistency of willow pre-production
- A new paperless design process using state of the art CAD (Computer Aided Design)
- Quantum improvements to the vital pressing operation
- Blade crafting by advanced CAM (Computer Aided Manufacturing)

### **TEKNIK™ PLUS SOCKS** 7157

ONE SIZE 6-13

One size fits all - this is a technical sock which shrinks in the wash but stretches back to its original size. The GM Teknik Plus sock combines Merino Wool and polypropylene to help wick away moisture, keeping the feet dry and blister free. The loop pile construction provides fully cushioned comfort.

The double padded sole, incorporating Cordura in the heel and toe, ensure durability and protection and with a specially designed relaxed top, ventilation channels and a flat link toe seam.

Teknik Plus - the ultimate cricket sock!

of its character and more useful to tune the bat to the player's technique. A bat with a 'light' pick-up may well suit a 'touch' batsman more accustomed to guiding or controlling the

THE GM PICK-UP INDEX

Most cricketers appreciate that whilst the absolute

weight of a bat is of interest, it is the 'feel' or 'pick-up'

of the bat when playing strokes that is more revealing

of timber.

Gunn & Moore English Willow bats are expertly crafted to

produce the best balance available from a particular cleft

batsman more accustomed to guiding or controlling the ball accurately in precise directions, whilst a 'heavier' pick-up bat will be appreciated by batsmen more used to the power game.

Gunn & Moore introduce the GM Pick-Up Index, an assessment made at the factory by the batmaker of the bat's relative pick-up. This is a subjective view as to the type of batsman who may derive maximum performance from the bat, rather like a wine expert recommending a particular vintage to suit an individual's taste.

The Pick-Up Index will prove useful in helping batsmen select a particular Gunn & Moore bat to further develop and exploit their technique to very best advantage.

The top quality equipment, clothing and footwear described in this brochure has been designed and tested by Gunn & Moore experts and built by craftsmen using the finest selected materials to the exacting standards of craftsmanship for which Gunn & Moore products have been world famous since 1885.

#### WHICH GUNN & MOORE BAT?

Selecting a cricket bat is a very personal decision. There are no right or wrong bats, the bat to choose is the one that feels most comfortable for you. We recommend that you always feel the bat before you buy it and that you pick up several bats before making your final choice. Make sure you ask where your bat is made and by whom. All GM DXM English willow bats are made by our own craftsmen in our own factory in Nottingham, England. GM 5 Star dealers carry a wide range of GM bats and will give sound advice. The Gunn & Moore range of bats is designed to suit every technique and budget.

We offer seven blade shapes designed using our world leading DXM process:

DIAMOND® L540, AION™ L555, MANA™ L540, HYPA™ L555, BRAVA™ L555, KRYOS™ L540 & RADON™.

Each shape has different profile characteristics which are explained in detail on pages 3-14.

We offer English willow bats in nine qualities:

ORIGINAL L.E., ORIGINAL, SIGNATURE L.E., 909, 808, 707/SIGNATURE, 606, 404 & RADON™.

Each quality is developed around different grades of willow which are explained in detail on page 5.
